

18 Gauge Finish Nailer SENCO Fusion FN55AX Pneumatic Driven, Li-ion Powered!

The SENCO Fusion FN55AX is the power and utility of a pneumatic tool combined with the convenience of a cordless tool. Our patented Reflex-Shot technology provides an instant shot when the trigger is pulled with no ramp-up time. Perfect for trim crews, remodelers, punch-out, or anyone who does not want to deal with the hassle of a hose and compressor. Save up to \$300 a year by not having to buy any fuel cells!

Applications

Molding and decorative trim, furniture trim, window beading, blind pinning of upholstered and trim panels, rattan, scribe molding, cabinets, drawers and picture frame assembly

Features and Benefits

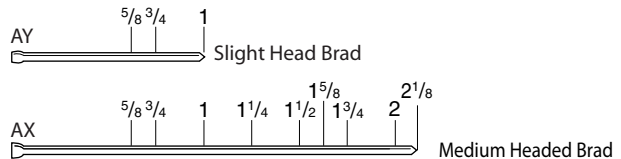

- Instant Trigger Response - Patented Reflex-Shot Technology
- Resistant to Damage - Robust 1/4" Aluminum Drive Cylinder, Durable Over-Molding
- Illuminated Work Surface - Nose Mounted LED Light
- Contact or Sequential Actuation - Selectable Switch
- Perfect Counter-Sinks - Thumbwheel Depth-of-Drive
- Powerful, Consistent, Eco-Friendly Energy - 18v Li-ion Battery

Specifications

Item#.....	6E0001N
Selectable actuation trigger	
Tool Weight	6.0 lbs (2.72 kg)
Height.....	13" (330 mm)
Length	11" (279 mm)
Width	3" (76 mm)
Fastener Capacity.....	110
Battery	One Li-ion 18V
Charger.....	80% in 15 minutes 100% in 45 minutes

Fastener Specifications

Gauge	18
Fastener Range	5/8" - 2 1/8" (16 mm - 54 mm)
Finish.....	Galvanized
Collation.....	Straight glued strip

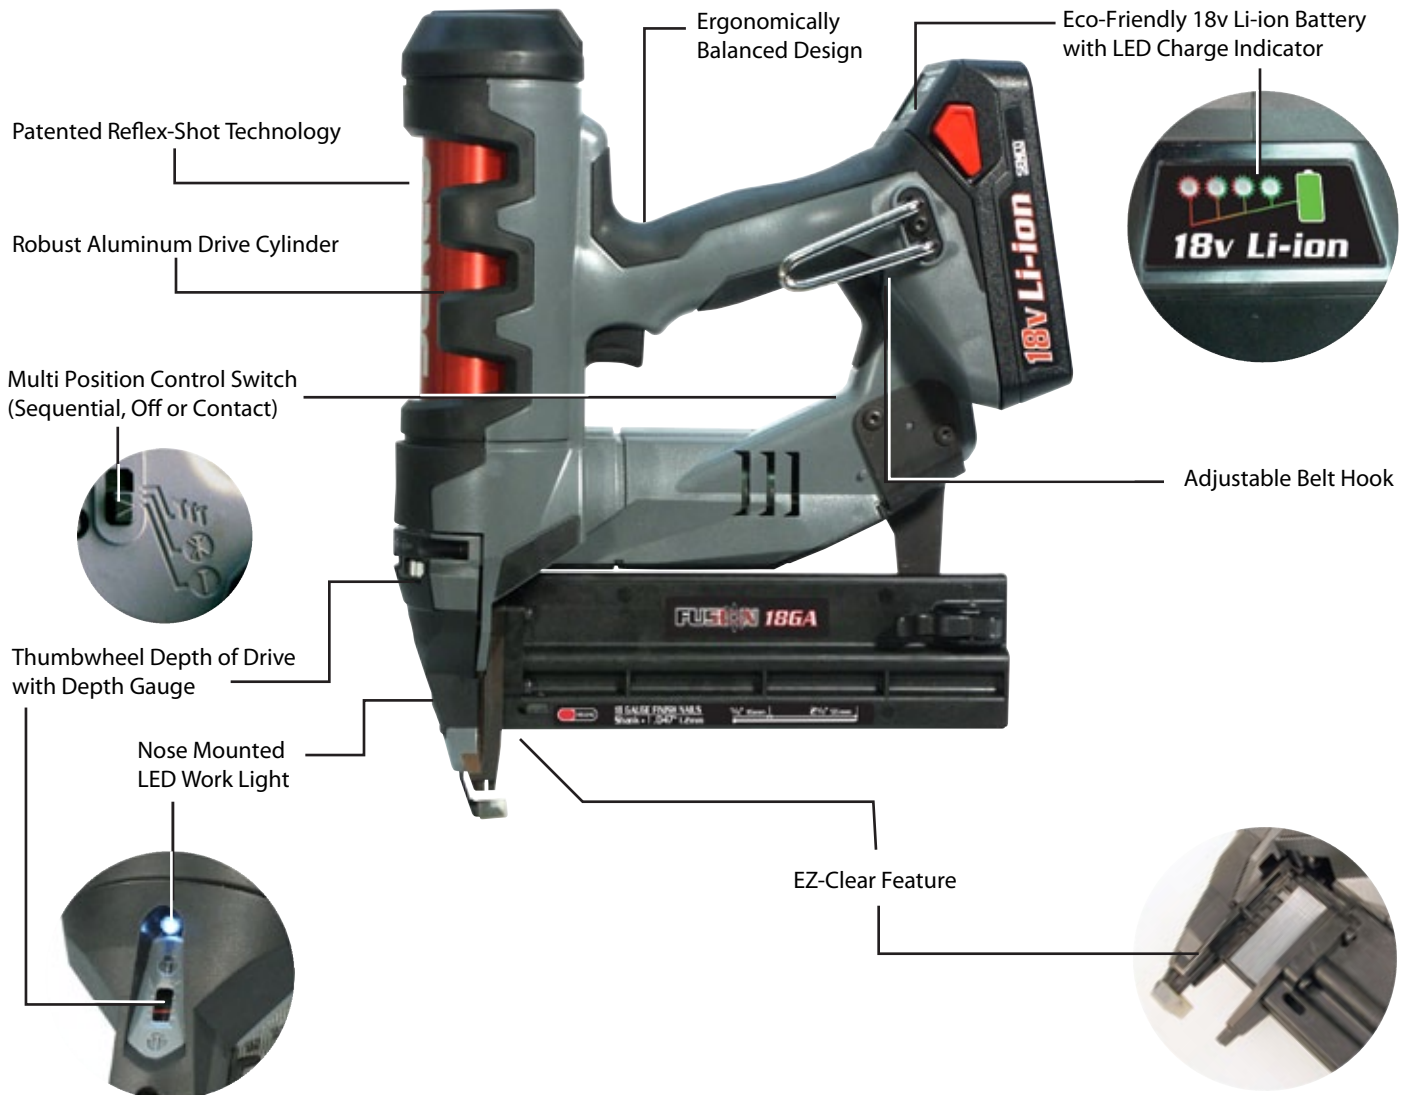

SENCO® 18 Ga. Straight Strip Brad Nails Cabinets, decorative trim, picture frames and ornamentals

18 Gauge Finish Nailer SENCO Fusion FN55AX Pneumatic Driven, Li-ion Powered!

Choose the right trigger system for your specific needs!

Sequential Actuation Trigger (also known as restrictive trigger or trigger fire) operates in the following sequence - depress the safety element at the nose of tool against the work surface then pull the trigger. After each fastener is driven, release the trigger and lift the tool off the work surface before starting the sequence again. This trigger is recommended and acceptable for most applications.

Contact Actuation Trigger (also known as dual action, bounce or bottom fire) operates in the following sequence- pull the trigger first and keep the trigger pulled while moving the tool along the work surface with a bouncing motion, depressing the safety element at the nose of the tool against the work surface where the fastener is to be driven. This trigger is recommended for use by trained professionals only in high production or volume applications.

Always read the Operators Manual and Safety Instructions with all tools to ensure proper use and safety precautions. For additional information on trigger systems and how SENCO will save you time, reduce costs, and increase quality, call our toll-free Action Line: 800-543-4596 to find your nearest Authorized Senco Dealer, Distributor or visit our web site at: www.senco.com
